Equal RIghts Advocate for the Trans-gendered - Trans-sexual Community

To: Colo.Spgs. Minority Coalition

For the past several months I have been trying to have my name legally changed. To my amaizement not a single 1 of the attourneys that are soliciting Gay business here in Colo.Spgs would return my calls. Unable in my situation to properly fill out the forms recomended to the public , month after month went by and I wasnt getting anywhere.

Then I ran acrost local attourney Dean Austin. He was so nice. All for $150 + filing fees he delivered initial pitition, met in judges chambers to have my order signed, delivered the pitition to the newspapers, pititioned my name change on my birth cirtificate, social security, and will pitition to change the M on my drivers license and birth cirtificate to F after surgery. He did it all on a form he made that made the judge acknowledge my chemical sex change, which will give me further benifits in society. The whole thing ended up costing $240, Far lower than most attourneys for 3 hours work.

I have never felt so comfortable with an attourney. I have been in big law suits using Dick Teghmeir, of Teghmeir Bennett & Sears, at one time this towns best. So I know about lawyers, and I must say Dean Austin is not a mealley mouthed wimp like the rest.

Moving here from California and serving on their Supreme Court, has many years of experiance. A visit to Dean's office may find you chatting for 2 hours, playing on his fantastic computer, and receiving loads of free advice. Dean wont charge you $80 for a phone call , why ? because he seems to care about people. Small incidents that require a couple of court appearances, or a deal with the DA wont cost a thousand, but only around $200 for those with a small income. . He has sued other attourneys for clients and won, something most wont do, and is an attourney for the client and not the system.

I highly recommend attourney Dean Austin !

Dean Austin Attourney at law.
